The multi-authored Compendium on Diagnostic Cytology was originally compiled in 1971 as a teaching aid for registrants of the Tutorials of Cytology. It underwent several revisions and became the reference book of the state of the art in diagnostic cytology. The Compendium has proven to be especially useful for those who wish to prepare themselves for registry and board examinations.

This latest updated and revised edition of the classic, multi-authored work on diagnostic cytology contains new chapters, revised chapters, updated bibliography and is also available on CD-ROM for purchasers of the Compendium.

The authors of the Compendium are:

Gunter F. Bah, USA
Nina L. Bah, USA
Ulrich Bettendorf, Germany
Marluc Bibo, USA
Thomas A. Bonfiglio, USA
Ulrich Cokabel, Germany
Michael Drake, Australia
